
Suicide Squad download 1080p

Suicide Squad is a 2016 American superhero film based on the DC Comics supervillain team of the same name. "Suicide Squad" coming to FOX next month. Warner Bros. is going with a wide release in only 4 theatres on August 6th, followed by a VOD digital release on August 12th (at the same time it will be coming to Netflix). So, for those of us who live outside of the area -- or for those of us just curious -- we'll be able to see it. It would have made sense to have this new film go on the circuit and then have a big theatrical run for the next one (which I assume will be about the recent events on "Walking Dead" and "Fear the Walking Dead"), but I know this is how things go at the moment. Oh well. Suicide Squad is anything but a good decision. Director James Gunn, who is getting a lot of backlash over Guardians of the Galaxy 2, is at the helm of this movie. I'm sure that little Benoit movie was picked up by Disney and will be with us for years, but a Suicide Squad movie? This one feels long, but not in the good way. It seems like the story goes on and on until it gets to a point where it's unclear as to what point it's going. The plot is a long and cheesy one, but if you've read any of the comics (all of them, actually) you know how convoluted the shit is. And then you have Viola Davis, who I adore in other things but looks very out of place here. She looks like she's stepping in some old girl fat suit and doesn't fit well into the script. John Cena also has a very small role (and last time I checked he's more known for being the friend of John Cena than anything else), and he's pretty much in everything. The only other notable ones are Margot Robbie (welcome to the world of a celeb) as Harley Quinn, Will Smith as Deadshot, and Jared Leto as The Joker. Oh, and Jai Courtney as Captain Boomerang. And Viola Davis, and Margot Robbie, and Will Smith. Oops, I went too far. Sorry. Here's a trailer: There's a lot of news swirling around for this. It would have been really cool if this one
