### **What's New in the Contact Alarm?**

Contact Alarm is a Skype add-on which is created to give you full flexibility when it comes to your contacts' status notifications. In opposition to Skype's internal notification feature, Contact Alarm lets you define what notification (fading/static windows & audio/video & log-file) you want to receive when one of your contacts changes his/her online status.

requested feature of Skype for Windows. But as you

all must be already aware that from version 3.0

Skype's notifications feature is no longer in control of the user. It is integrated into Skype's UI and therefore

it is not like using the Skype for Windows version

which had its own notification center. Contact Alarm

is a Skype add-on which is created to give you full
