In your humble dust-box-based shipping company you take up your position on the docks and gradually influence the fate of a mysterious orb that has crashed to Earth. Your cargo is bound for a distant land. There's only one catch: you must remain conscious as you transport it. Can you endure the weight of the world on your shoulders? Will you survive the journey? Can you wake up again? About This Game Spiritfarer® is an original simulation management game set in a cozy world of shipping, where a little day-to-day life and a good conscience make the difference. It tells the story of a lonely old dust-box, transporting souls to their final destination. To this end, you will perform cargo handling tasks, operate the cargo jet and sell items on a free market. You'll also make regular phone calls to collect your earnings, maintain the jet, buy new ships, and compete with cargo ships to the best of your ability. When you die, you'll lose all your cargo, so never stop dreaming, and keep an eye on your cargo meter! Spiritfarer® is about managing your existence between the two worlds of the living and the dead, and your daily struggles to keep the cargo ship's motors running. You must combine the best characteristics of your spirit-cargo ships — the pickups and the deliveries — with your skills as a manager to decide how you will conduct your shipping. You're trying to maintain a comfortable and satisfying life for yourself, fulfilling the needs of your bosses as well as customers, supplying items to cities, helping passengers to connect with their loved ones, and finding as many ways to keep up the valuable cargo.
