he has always been addicted to scene-painting, quite as if poetry were not at all a literature of sentences and all the rest. in that context it is unwise to take a poem, or the like, at its face value: instead one should constantly be aware of the fact that the only thing it can be about is the simple figures of duration and use that make up his experience. muldoon has rarely been in doubt about the historical and political implications of his work. in the mid seventies he began to write strongly separatist poems which transformed into about the same time, with the appearance of the bells, into the series of volumes published from 1980 onwards which were a monument to the irredentist will of the irish people in their struggle for independence from england and later from the english-irish empire. as is well known, the industry of the irish islanders was smashed by the english: the economic and social disruption was indescribable. the language itself was taken from them. ireland ceased to be seen as a nation but a province of the empire and no one had any historical interest in the language of one's own nation. muldoon's poems, however, gathered memory and the history of a people trapped in a position where the english people had a concept of history about which they could not but be aware, whilst at the same time the celt could not but know that history too. gigi taylorbig dick, deep throat, milf, pornstar, rough sex, stocking fucking, amateur, pov, squirt, hd video, depththroat, cum swallowing, pussy licking, fat cock, big tits, blowjob, nipples, natural tits
