Pc Logo For Windows Version 1.01a Download [PATCHED] Free

The Microsoft Windows Logo (MSW Logo) is an educational programming language. This Logo implementation combines features of Windows and Logo. This tutorial includes many code examples to illustrate the capabilities of this language. It also includes some ideas that you can use to make your own projects. This course is not meant for people who are new to programming, but rather for experienced programmers who want to get familiar with Logo. This course can also be used as a guide for application developers.
