Buggy, or what? Unfortunately, we didn't find Audiblogs (Send As Podcast) a reliable application, despite its good intentions. We did, however, find the extension useful, if only for testing purposes, and its developer, ahejsan, appears to have worked diligently to rectify some of the shortcomings. Workaround: Audiblogs (Send As Podcast) Extension The extension hasn't been updated in over a year, and in the latest update, both version 1.2 and 2.2 were released, and both seem to have the same bugs. For instance, both versions have no audio functionality whatsoever, and the "Copy text to mp3 player" button simply re-routes the user to the same play button that was previously present. It doesn't matter if you want to preview the text as a direct audio feed, or have a more interactive player for previewing the converted content, as the extension simply has no ability to deliver on such promises. It's likely that this bug will be addressed in the next update, and we'll be sure to report when that happens. How to install: • You can install the extension from the official website • You can find the extension on the Chrome Web Store • You can find the extension on the Firefox Add-ons Manager • You can find the extension on the Chrome Web Store • You can find the extension on the Firefox Add-ons Manager • You can find the
